

# Cheatgrass Field Tour

This tour will highlight cheatgrass control research being conducted on the Pennock Habitat Management Area near Saratoga, WY. Stops on the tour will include ongoing University of Wyoming research on cheatgrass control using herbicides, and Bureau of Land Management plots treated with D7 bacteria (*Pseudomonas fluorescens*). Some hiking in steep and rocky terrain will be required, so please come prepared. Roads leading to the sites are best accessed by four-wheel drive vehicles with high clearance. We will try to consolidate into as few vehicles as possible.

**June 22, 2017 9:00 am to 2:00(ish) pm.**

**Meet at Saratoga Platte Valley Chamber of Commerce  
210 West Elm Street, Saratoga, WY 82331**

**Tour will be held at Pennock Habitat Management Area**

Lunch will be provided!
